PRESS RELEASE

PLAE2TECH Ltd (former 3TEMP Ltd) have reached an agreement with Espresso Prego in Hamburg for them to become sole agency for distribution of the Hipster series and accessories for the German market the coming years...

PLAE2TECH Ltd (former 3TEMP Ltd) received the good news late on Thursday November 29. The company's chief of sales (CSO) Jonas Florin continues:

-”This is great news for us. Our ambition is and always will be to offer our high profile filter coffee machines and accesories – The Hipster Series - on every continent and country where we are able and allowed to do business. With Espresso Prego as our brand new sole agency for distribution/sales, we believe that the Hipster series will be a perfect match for the German market”, says mr Florin.

The agreement will go into effect immediately and Espresso Pregos CEO George Schwarz is also truly happy for this:

-”We are thrilled and more than proud and happy to be the solo sales agent for PLAE2TECH Ltd (former 3TEMP Ltd) in Germany! What I see in the future regarding our business is that we will be able to serve key accounts now as we have a nation wide network of technicians that have had the #3temp training for quality assurance and support. As we are the solo sales agency for Loring as well, we are able to supply roasters and their clients with the best filter coffee machine (see Hipster 1GRP) and the most easy recipe and controlling tool. There will be a bright future for us in Germany”, concludes George Schwarz for Espresso Prego.
