3TEMP

When Quality Matters!

THE DIFFERENCE

The 3TEMP filter brewers are known for their exceptional quality, innovative design, and advanced technology, which set them apart from other filter brewers on the market.

THE 3TEMP STORY

Founded in 2013, 3TEMP is a rapidly growing company focused on revolutionizing the coffee industry. Based in Arvika, Sweden, we have earned a reputation as a leading manufacturer of specialty coffee equipment by developing state-of-the-art brewers that offer exceptional quality, versatility, and user-friendliness.

We are always looking to the future and committed to staying at the forefront of innovation. That's why we're excited to announce our upcoming line of ground-breaking brewers. Our new range of products will incorporate the latest technology and design features, providing an unparalleled coffee experience for our customers.

At 3TEMP, we are passionate about shaping the future of coffee culture around the world. We look forward to serving our clients and continuing to develop innovative solutions that meet the evolving needs of the coffee industry.

INNOVATIVE DESIGN

3TEMP brewers have a unique and modern design that is both functional and visually appealing. The brewers are made of high-quality materials, such as stainless steel and aluminium, and feature a range of thoughtful design details, such as wooden handles and panels, that add to their overall aesthetic appeal.

SUSTAINABILITY

3TEMP is committed to sustainability and has designed their brewers with this in mind. The brewers are energy-efficient and use minimal water, making them environmentally friendly.

PRECISION BREWING

3TEMP brewers use advanced technology to ensure precise temperature and flow control, resulting in a consistently delicious cup of coffee every time. This means that you can enjoy your favourite coffee with the exact flavour and aroma you prefer.

VERSATILITY

3TEMP brewers are versatile and can brew different types of coffee, such as pour-over, cold drip, and tea. This means that you can experiment with different brewing methods and enjoy a wide range of flavours and aromas.

WALL

The WALL from 3TEMP offers premium coffee batch brewing in a compact and minimalist design, making it the perfect solution for small spaces. With the ability to install the brew unit at any height and the water unit located behind the wall or under the counter, the WALL maximizes usable space without compromising on functionality.

KOBRA

The ultimate brewing machine for any coffee lover. With adjustable height and the ability to brew batch, single, and cold brew, the KOBRA delivers unparalleled versatility.

Despite its sleek and minimalist design, the KOBRA is built to accommodate any thermos you have and is perfect for tight spaces. With the bulk of the machinery under the counter, the KOBRA's serpentine head is the only part on display, making it a stylish addition to any cafe or office.

And with the optional drip tray, you can easily adjust the height of the brewer to fit any cup or thermos. The KOBRA - nothing moves like it.

PULSE

The coffee brewer that's revolutionizing the way we think about coffee. With natural wood side panels inspired by Sweden's stunning nature and a bold black design, the PULSE adds a touch of modern style to any countertop. But don't be fooled by its appearance – PULSE is a powerhouse, driven by the cutting-edge technology of 3TEMP brewers.

With the PULSE, brewing coffee has never been easier or more enjoyable. Experience a mild and creamy taste with standard coffee or indulge in the finest coffee specialties. Join the coffee revolution and elevate your brewing game with PULSE – the brewer that's always on the pulse of our time.

3TEMP BREWERS ARE MORE THAN HOT

Experience coffee and tea brewing like never before with 3TEMP. Our innovative brewers are more than just hot coffee makers - they're versatile brewers that can extract both cold and warm beverages to perfection.

In just under 20 minutes, our 3TEMP series can deliver 2-3 litres of refreshing cold brew that's sure to quench your thirst. Plus, our optimized extraction process makes it easy to create the base for delicious iced tea as well.

Discover the ultimate coffee and tea brewing experience with 3TEMP - we're more than just hot!

...AND CAN DO MORE THAN JUST COFFEE

Discover a new world of coffee with the 3TEMP brewers - the ultimate tool for crafting out-of-this-world beverages.

With precise temperature control and perfectly balanced extraction phases, you can unlock endless possibilities for your brews. But that's just the beginning. Our brewers offer a world of opportunity, from alcoholic and non-alcoholic coffee creations to refreshing iced tea.

Get creative and whip up a Black Forest Russian or a Marshmallow Latte - the sky's the limit.

Join the 3TEMP revolution and unleash your inner barista.

CPA – COFFEE PARTICLE ANALYZER

Get control over your grinds!

By analyzing the particle size distribution, the CPA helps coffee producers optimize their grinding processes to achieve a more consistent grind, which leads to improved flavor and quality in the final product.

The device is also useful for ensuring consistency in the production of different coffee blends and for monitoring the quality of roasted coffee beans.

Overall, the CPA is an important tool for coffee professionals who are seeking to improve the quality of their products and ensure consistency in their production processes.
